ENCOURAGED BY SARGENT.

With regard to the action by the Supreme Council at Terra Haute, to-day, it was stated that the interview with Grand Master Sweeney had been wired to Chief Sargent by the General Executive Board of the Knights and that he had sent back word this morning that everything area all right.

All this was regarded as very encourag-

ing to the Knights, who feel sure that the Federation is going to stand by them in their fight for existence.

HOPE OF ARBITRATION.

Powderly and the Knights Here Relying on the State Board.

There are two questions to-day that are appermost in the minds of the Knights of Labor who are engaged in making their final preparations for the great conflict with the New York Central Railroad

One of these is, what decision will the Supreme Council of the Federation, which TERRE HAUTE, Aug. 23.-The head- has assembled to-day at Terre Haute, quarters of the members of the Supreme arrive at in regard to the proposition to Council of the Railway Federation join the Knights in their fight against the

Mr. Sargent was seen at his hotel this morning and expressed himself as follows:

When the Council convoues this morning I will make my report of what I learned on my visit to New York. This, I think, will occupy three hours."

"How long will the convention last?" he was asked.

"Maybe to day; maybe a week, but the latter I think improbable. Please quote me now simply as a member of the Railway Federation. I have only one voice in the matter, but I am heartily in accord with Mr. Powder!?.

"I am satisfied that organized labor is in danger, and that decat now means disintegration for all unions of lab r men.

"When in New York Mr. Webb sent for me. I would not have called on him otherwise. He freated me very well, but I saked him why he did not want to discuss the situation with a third party.

"If I called on you in the interest of the firemen would you decline to treat with me?! I asked him.

"To this he made an evasive reply, and I left him. In conclusion he said: 'If it is necessary to extend the strike, the Council will extend it. The Council will extend it.
